The Philosophy Of Law A

Philosophy of law is a branch of philosophy that examines the nature of law and law's relationship to other systems of norms, especially ethics and political philosophy. It asks questions like "What is law?", "What are the criteria for legal validity?", and "What is the relationship between law and morality?"

The Nature of Law (Stanford Encyclopedia of Philosophy)
Jurisprudence, or legal theory, is the theoretical study of law. Scholars of jurisprudence seek to explain the nature of law in its most general form and provide a deeper understanding of legal reasoning, legal systems, legal institutions, and the role of law in society.. Modern jurisprudence began in the 18th century and was focused on the first principles of natural law, civil law, and the ...

The argument that Fuller makes in “The Morality of Law” is intriguing and requires a second look at the Riggs. V. Palmer (1889) case. I believe that the proper procedure would have been to allow Riggs to inherit his inheritance although that would have allowed a murderer to inherit from his victims which is morally unjust, as no murderer should ever inherit from his victim.

Short Introduction to Law and
philosophy that is of common interest
to individuals in the disciplines of
jurisprudence and legal philosophy.

The journal publishes articles that use
all approaches in both fields.

Raymond Wacks reveals the intriguing
and challenging nature of legal
philosophy, exploring the notion of law
and its role in our lives. He refers to
key thinkers from Aristotle to Rawls,
from Bentham to Derrida and looks at
the central questions behind legal
theory, and law's relation to justice,
morality, and democracy.

Adam Smith and the Philosophy of
Law and Economics is a unique book.
Malloy and Evensky bring together a

Access Free The Philosophy Of Law A Very

team of international and interdisciplinary scholars to address the work of Adam Smith as it relates to law and economics. In addition to their own contributions, the book includes works by Dr. John W. Cairns of the University of Edinburgh, Dr. J. Ralph Lindgren of Lehigh University, Professor Kenneth A.B. Mackinnon of the University of Waikato, and the Honorable Richard A. Posner of the United States Circuit Court of Appeals. Together these authors bring expertise from the areas of law, philosophy, history, economics, and law and economics to a new study of Adam Smith and his work. Part One of the book presents new and important observations on Smith's views on community, ethics, the court system, criminal law, and delictual or tort law liability. In this part of the book Smith's

Access Free The Philosophy Of Law A Very

Short Introduction to the work is also examined from the perspective of his use as persuasive authority in the works of modern legal economists. In Part Two the 'living Smith' is explored by way of a debate between two major contributors in the field of law and economics. The debate and its analysis create a unique and contemporary opportunity to study Smith as a foundational source in the midst of a current academic and social policy dispute. The understanding of Adam Smith that emerges from this book is new and complex. It will challenge the one-dimensional portrayals of Smith as a promoter of self-interest and it will correct many of the misinterpretations of Smith that are currently fashionable in the worlds of law and economics and the philosophy of law.

Access Free The Philosophy Of Law A Very

In *Philosophy of Law*, Andrei Marmor provides a comprehensive analysis of contemporary debates about the fundamental nature of law—an issue that has been at the heart of legal philosophy for centuries. What the law is seems to be a matter of fact, but this fact has normative significance: it tells people what they ought to do. Marmor argues that the myriad questions raised by the factual and normative features of law actually depend on the possibility of reduction—whether the legal domain can be explained in terms of something else, more foundational in nature. In addition to exploring the major issues in contemporary legal thought, *Philosophy of Law* provides a critical analysis of the people and ideas that have dominated the field in past centuries. It will be essential reading

for anyone curious about the nature of law.

"Simultaneously published in the USA and Canada."

This anthology of classical and contemporary philosophical and legal essays and legal cases focuses on legal philosophy as its own subject--rather than as an outgrowth of social or political philosophy or applied ethics. The essays focus on how law is organized and the particular philosophical issues that law raises--and gives readers the opportunity to think through actual debates—many of them still live in the courts. Provides short introductions and thought-provoking questions for each selection. The Practice of Law. The Rule of Law. The Moral Force of Law.

law. It is so concise that it is impossible to summarize it so as to give any idea of its wealth of learning....An excellent, impartial and concise presentation of the subject..." William Herbert Page, Harvard Law Review 36:115-117 cited in Marke, A Catalogue of the Law Collection at New York University (1953) 922.

The book presents a new focus on the legal philosophical texts of Aristotle, which offers a much richer frame for the understanding of practical thought, legal reasoning and political experience. It allows understanding how human beings interact in a complex world, and how extensive the complexity is which results from humans' own power of self-

construction and autonomy. The Aristotelian approach recognizes the limits of rationality and the inevitable and constitutive contingency in Law. All this offers a helpful instrument to understand the changes globalisation imposes to legal experience today. The contributions in this collection do not merely pay attention to private virtues, but focus primarily on public virtues. They deal with the fact that law is dependent on political power and that a person can never be sure about the facts of a case or about the right way to act. They explore the assumption that a detailed knowledge of Aristotle's epistemology is necessary, because of the direct connection between Enlightened reasoning and legal positivism. They pay attention to the concept of proportionality, which can be seen as

Access Free The Philosophy Of Law A Very Short Introduction by a precondition to discuss liberalism.

Philosophy of Law provides a rich overview of the diverse theoretical justifications for our legal rules, systems, and practices. Utilizes the work of both classical and contemporary philosophers to illuminate the relationship between law and morality Introduces students to the philosophical underpinnings of International Law and its increasing importance as we face globalization Features concrete examples in the form of cases significant to the evolution of law Contrasts Anglo-American law with foreign institutions and practices such as those in China, Japan, India, Ireland and Canada Incorporates diverse perspectives on the philosophy of law ranging from canonical material to feminist theory,
