They are by Judith Orloff, who has also written a book called The Power of Surrender, which has the subtitle Let Go and Energize Your Relationships, Success, and Well-Being. I've not read it but based on the cards, which I've found quite inspirational since I started using them a week ago, I'm going to add it to my wish list.

Would you like to stop pushing, micromanaging and forcing things so you can relax? What if you could enjoy what you have instead of always lusting for 'more'? What if you could live in 'the zone', propelled by powerful currents toward the right people and opportunities? What if you could stop worrying about money and live with more emotional ease in the moment? If you answer 'yes' to all these questions and desire lasting positive change, then prepare to experience the ecstasy of surrender. The art of letting go, Dr Judith Orloff explains, is the secret key to manifesting power and success in all areas of life, including work, relationships, sexuality, radiant aging, and health and healing. With her stunning gift for storytelling coupled with her unique, results-oriented approach to physical, emotional and spiritual health - marrying neuroscience, psychiatry, intuitive medicine, energy techniques and more - Judith provides a powerful, practical and accessible map for anyone who is longing to be happier but who feels stuck, burned-out, tense, worried or afraid to let go. (Previously published as The Ecstasy of Surrender, ISBN: 9781781804209)

The Power of Sexual Surrender, first published in 1959, is a classic guide to female sexuality and the treatment of frigidity. Author Marie Robinson M.D., a Cornell educated psychiatrist, devoted her New York City practice to the treatment of frigidity, and this book is a result of her work with hundreds of women seeking better sex lives and happier relationships. Although some 'feminists' may consider some of her ideas out-of-favor, her view of the basic nature of men and women remains timeless and of value today in promoting healthy, sane marriages. The Power of Sexual Surrender discusses female orgasm, the root causes of various types of frigidity, provides case histories as examples, and, importantly, provides simple means of self-treatment. One reviewer called the book “the sanest work on feminine psychology ever written.”

In her latest book, The Universe Has Your Back, New York Times best-selling author Gabrielle Bernstein teaches readers how to transform their fear into faith in order to live a divinely guided life. Each story and lesson in the book guides readers to release the blocks to what they most long for: happiness, security and clear direction. The lessons help readers relinquish the need to control so they can relax into a sense of certainty and freedom. Readers will learn to stop chasing life and truly live. Making the shift from fear to faith will give readers a sense of power in a world that all too often makes them feel utterly powerless. When the tragedies of the world seem overwhelming, this book will help guide them back to their true power. Gabrielle says, “My commitment with this book is to wake up as many people as possible to their connection to faith and joy. In that connection, we can be guided to our true purpose: to be love and spread love. These words can no longer be cute buzz phrases that we merely post on social media. Rather, these words must be our mission. The happiness, safety, and security we long for lies in our commitment to love.” When readers follow this path, they 'll begin to feel a swell of energy move through them. They will find strength when they are down, synchronicity and support when they 're lost, safety in the face of uncertainty, and joy when they are otherwise in pain. Follow the secrets revealed in this book to unleash the presence of your power and know always that The Universe Has Your Back.

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of The Laws of Human Nature. In the book that People magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, The 48 Laws of Power is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Describes a means to let go of the obstacles to Enlightenment and become free of negativity.

An introduction to "energy psychiatry" draws on intuition, the body's energy, and traditional medicine to address a range of emotional challenges, from workaholism to social anxiety, sharing energy-enhancing exercises and the author's recommendations on how to cultivate positive energy. Reprint. 75,000 first printing.
