Indeholder ragaer med nodetranskription fra Nordindien, Pakistan, Nepal og Bangladesh og giver en indføring i ragaens historisk-kulturelle baggrund

This Is A Book Of And About The Classical Music Of North India, Among The Oldest Continual Musical Traditions Of The World. This Volume Introduces The Great Richness And Variety Of The Different Styles Of Music As Taught By One Of The Century`S Greatest Musicians, Ali Akbar Khan.

This Book Is Perhaps The First Comprehensive Guide To Understanding All The Aspects And Finer Nuances Of Hindustani Classical Music And Also Includes A Glossary Of Musical Terms And A Select Bibliography.

Music in North India provides a representative overview of this music, discussing rhythm and drumming traditions, song composition and performance styles, and melodic and rhythmic instruments. Drawing on his experience as a sarod player, vocalist, and music teacher, author George Ruckert incorporates numerous musical exercises to demonstrate important concepts. The book ranges from the chants of the ancient Vedas to modern devotional singing and from the serious and meditative rendering of raga to the concert-hall excitement of the modern sitar, sarod, and tabla. It is framed around three major topics: the devotional component of North Indian music, the idea of fixity and spontaneity in the various styles of Indian music, and the importance of the verbal syllable to the expression of the musical aesthetic in North India.

An autobiographical exploration of the role and meaning of music in our world by one of India's greatest living authors, himself a vocalist and performer. Amit Chaudhuri, novelist, critic, and essayist, is also a musician, trained in the Indian classical vocal tradition but equally fluent as a guitarist and singer in the American folk music style, who has recorded his experimental compositions extensively and performed around the world. A turning point in his life took place when, as a lonely teenager living in a high-rise in Bombay, far from his family's native Calcutta, he began, contrary to all his prior inclinations, to study Indian classical music. Finding the Raga chronicles that transformation and how it has continued to affect and transform not only how Chaudhuri listens to and makes music but how he listens to and thinks about the world at large. Offering a highly personal introduction to Indian music, the book is also a meditation on the differences between Indian and Western music and art-making as well as the ways they converge in a modernism that Chaudhuri reframes not as a twentieth-century Western art movement but as a fundamental mode of aesthetic response, at once immemorial and extraterritorial. Finding the Raga combines memoir, practical and cultural criticism, and philosophical reflection with the same individuality and flair that Chaudhuri demonstrates throughout a uniquely wide-ranging, challenging, and enthralling body of work.

The classic introduction to the Caribbean's popular music brought up to date.
