Lyrics to 'The Shadow Of Your Smile' by Tony Bennett: One day we walked along the sand
One day in early spring You held a piper in your hand
To mend its broken wing Now I'll remember many a day

At age eighty-three and in failing health, Olivia Morrow knows she has little time left. The last of her line, she faces a momentous choice: expose a long-held family secret, or take it with her to her grave. Olivia has in her possession letters from her deceased cousin Catherine, a nun, now being considered for beatification by the Catholic Church. These letters reveal that, at the age of seventeen, Catherine gave birth to a son and gave him up for adoption and they identify the father as Alex Gannon, a world-famous doctor, scientist and inventor of medical patents. Now, two generations later, thirty-one year old paediatrician, Dr. Monica Farrell, Catherine's granddaughter, stands as the rightful heir to what remains of the Gannon family fortune. But in telling Monica who she really is and getting what is lawfully hers, Olivia would have to betray Catherine's wishes and reveal the story behind Monica's ancestry. But as the pressure of Olivia's impending choice weighs down on her, little does she realize that Alex Gannon's grand-nephews - who are currently exploiting the Gannon inheritance to fund their profligate lifestyles - will stop at nothing to silence Olivia and prevent Monica from learning the secret, even murder.

In *The Shadow of Your Smile*, worldwide bestselling author Mary Higgins Clark weaves a spellbinding thriller revolving around a long-held family secret that threatens to emerge and take the life of an unsuspecting heiress. At age eighty-two and in failing health, Olivia Morrow knows she has little time left. The last of her line, she faces a momentous choice: expose a long-held family secret, or take it with her to her grave. Olivia has in her possession letters from her deceased cousin Catherine, a nun, now being considered for beatification by the Catholic Church—the final step before sainthood. In her lifetime, Sister Catherine had founded seven hospitals for disabled children. Now the cure of a four-year-old boy dying of brain cancer is being attributed to her. After his case was pronounced medically hopeless, the boy's desperate mother had organized a prayer crusade to Sister Catherine, leading to his miraculous recovery. The letters Olivia holds are the evidence that Catherine gave birth at age seventeen to a child, a son, and gave him up for adoption. Olivia knows the identity of the young man who fathered Catherine's child: Alex Gannon, who went on to become a world-famous doctor, scientist, and inventor holding medical patents. Now, two generations later, thirty-one-year-old pediatrician Dr. Monica Farrell, Catherine's granddaughter, stands as the rightful heir to what remains of the family fortune. But in telling Monica who she really is, Olivia would have to betray Catherine's wishes and reveal the story behind Monica's ancestry. The Gannon fortune is being

squandered by Alex's nephews Greg and Peter Gannon, and other board members of the Gannon Foundation, who camouflage their profligate lifestyles with philanthropy. Now their carefully constructed image is cracking. Greg, a prominent financier, is under criminal investigation, and Peter, a Broadway producer, is a suspect in the murder of a young woman who has been extorting money from him. The only people aware of Olivia's impending choice are those exploiting the Gannon inheritance. To silence Olivia and prevent Monica from learning the secret, some of them will stop at nothing—even murder. Clark's riveting new novel explores the juxtaposition of medical science and religious faith, and the search for identity by the daughter of a man adopted at birth.

After 25 years, Noelle and Eli Hueston are contemplating divorce. But then an accident erases part of Noelle's memory. Though her other injuries are minor, she doesn't remember Eli, their children, or the tragedy that has ripped their family apart.

Representing the letter "Z" in a series of 26 collectible editions, a new design of a classic novel follows the son of an antiquarian book dealer who stumbles upon a dark secret while trying to discover why all copies of a mysterious author's books are being systematically destroyed.

A stunning, powerful debut novel set against the backdrop of the Cambodian War, perfect for fans of Chris Cleave and Chimamanda Ngozi Adichie For seven-year-old Raami, the shattering end of childhood begins with the footsteps of her father returning home in the early dawn hours bringing details of the civil war that has overwhelmed the streets of Phnom Penh, Cambodia's capital. Soon the family's world of carefully guarded royal privilege is swept up in the chaos of revolution and forced exodus. Over the next four years, as she endures the deaths of family members, starvation, and brutal forced labour, Raami clings to the only remaining vestige of childhood - the mythical legends and poems told to her by her father. In a climate of systematic violence where memory is sickness and justification for execution, Raami fights for her improbable survival. Displaying the author's extraordinary gift for language, *In the Shadow of the Banyan* is a testament to the transcendent power of narrative and a brilliantly wrought tale of human resilience. 'In the Shadow of the Banyan is one of the most extraordinary and beautiful acts of storytelling I have ever encountered' Chris Cleave, author of *The Other Hand* 'Ratner is a fearless writer, and the novel explores important themes such as power, the relationship between love and guilt, and class. Most remarkably, it depicts the lives of characters forced to live in extreme circumstances, and investigates how that changes them. To read *In the Shadow of the Banyan* is to be left with a profound sense of being witness to a tragedy of history' Guardian 'This is an extraordinary debut ... as beautiful as it is heartbreaking' Mail on Sunday

This enriching book describes the value of learning about the development of the human personality through the

experience of observing a baby in the context of the family. It is distinctive in the field of infant observation literature, for it shows how the affective learning model augments the learning experience. It also highlights a somewhat neglected area of observational study: the relationship between siblings and its influence on the development of self-esteem of the younger child.

EM Castellan's *In the Shadow of the Sun* is a sumptuous YA fantasy/romance novel set in 17th century Versailles. It's 1661 in Paris, and magicians thrill nobles with enchanting illusions. Exiled in France, 17-year-old Henriette of England wishes she could use her magic to gain entry at court. Instead, her plan is to hide her magical talents, and accept an arranged marriage to the French king's younger brother. Henriette soon realizes her fiancé prefers the company of young men to hers, and court magicians turn up killed by a mysterious sorcerer who uses forbidden magic. When an accident forces Henriette to reveal her uniquely powerful gift for enchantments to Louis, he asks for her help: she alone can defeat the dark magician threatening his authority and aid his own plans to build the new, enchanted seat of his power--the Palace of Versailles.

Sixteen-year-old Molly Fraser works as a nurse with Florence Nightingale during the Crimean War to earn a salary to help her family survive in nineteenth-century England.

When Natalie Raines, famous Broadway star, is found in her home in Closter, New Jersey, dying from a gunshot wound, her former husband, Gregg Aldrich, whom she was in the process of divorcing, is the chief suspect. What no one knows is that, only days before she was murdered, Natalie accidentally came face to face with the man who killed her former roommate, Jamie Evans. Two years later, career criminal Jimmy Easton, comes forward to claim that Aldrich hired him to kill his wife, but he turned the job down. Based on Easton's testimony, Gregg is charged with the murder of his wife. Handling the case is Emily Wallace, an attractive thirty-two-year-old widowed assistant prosecutor. As Aldrich's trial is making headlines, Emily's boss, Ted Wesley, warns her that this high-profile case will reveal personal matters about her, such as the fact that she had a heart transplant. And, during the trial, Emily experiences sentiments which defy all reason and continue after Gregg Aldrich's fate is decided by the jury.
