The Najdorf is one of the most respected variations of the Sicilian Defence. Over decades it has remained a sound yet attacking weapon in the hands of the world's finest players including several world champions. Join Robert James Fischer, Kasparov, Anand, Topalov, MVL and legions of club players by playing for a win with Black using the Najdorf. Expert and Grandmaster Milos Pavlovic will be your practical and honest guide in this fifth book for Thinkers Publishing.

The Najdorf Variation of the Sicilian Defence continues to be extremely popular, both with top grandmasters and club players. And for very good reasons: it is a flexible, ambitious, wonderfully rich and diverse system, offering one of the best ways for Black to play for a win. Both Bobby Fischer and Garry Kasparov achieved great successes with their beloved Najdorf. In this book, Grandmaster Zaven Andriasyan presents a groundbreaking attacking repertoire for Black. He analyses a large number of recent games from top players such as Topalov, Gelfand and Grischuk, explaining the various tactical and positional themes. Revisiting all major Najdorf battlegrounds Andriasyan radically overturns chess opening theory that was developed during decades. He manages to find an astonishing number of improvements: all in all he presents more than two hundred novelties. A must-read for Najdorf lovers!

Chess Developments is a series which provides state-of-the-art openings coverage. Chess Developments focuses on the current trends - concentrating on critical lines, theoretical novelties and powerful new ideas. It offers players of all levels the opportunity to keep up-to-date with current opening theory whilst also expanding and improving their repertoires. The Sicilian Najdorf is undoubtedly one of the most popular chess openings. It was played with great success by world champions Bobby Fischer and Garry Kasparov and today it remains a favourite defence at all levels from grandmaster to beginner. 6 Bg5 is widely acknowledged as a critical test of the Sicilian Najdorf. It leads to razor-sharp positions and hotly debated lines such as the fascinating Poisoned Pawn, where one small slip by either side can be fatal. In this book, International Master Kevin Goh Wei Ming examines the most theoretically important and instructive games in recent years, highlighting the main developments and novelties for both sides. Whether playing White or Black, this book provides you with essential knowledge of an important opening. Essential coverage of a popular openingWritten by a Sicilian Najdorf 6 Bg5 expertPacked with new ideas and critical analysis

The Najdorf Sicilian is one of Black's most respected and popular responses to 1 e4. It was favoured by those two titans of the game, Bobby Fischer and Garry Kasparov and in the modern game it features in the repertoire of many elite players. This rich opening creates a wealth of opportunities for vigorous attacks, causing most games to be tense and engaging. The Najdorf is that very rare thing - an opening for Black that is highly aggressive but is also recognised as being objectively sound. In this book, FIDE Master John Doknjas and National Master Joshua Doknjas navigate through the main lines of the Najdorf and provide the reader with well-researched, fresh, and innovative analysis. Each annotated game has valuable lessons on how to play the opening, and contains instructive commentary on typical middle-game plans. With thorough variations and explanations on pawn structures and piece placement, this book provides insight to both strong masters and less experienced players alike. The format is ideal for the chessplayer keen to improve their game. While reading you are continually challenged to answer probing questions - a method that greatly encourages the learning and practising of vital skills just as much as the traditional assimilation of chess knowledge. Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn. This is an excellent way to study chess while providing the best possible chance to retain what has been learnt.

The Najdorf Sicilian has a unique place amongst chess openings: for several decades it has been regarded by the top grandmasters as the best way for Black to play soundly for a win against 1 e4. It was a particular favourite of World Champions Bobby Fischer and Garry Kasparov, and plays a vital role in the repertoires of current top players such as Viswanathan Anand and Veselin Topalov. Black's stance is totally uncompromising. He accepts no organic weaknesses and stays flexible, ready to counterpunch in any part of the board. White has no safe or easy option. On the other hand, he does have a vast array of extremely dangerous attacking options, such as the old 6 Bg5 main line, which can lead to the Poisoned Pawn, a variation that has undergone much development in the 21st century. The current main line is 6 Be3, intending the English Attack. But given the Najdorf's importance, White has tried almost everything imaginable in the search for an advantage, with considerable bodies of theory evolving for lines that contain merely a drop of poison. In the ever-changing Najdorf landscape, it is easy to lose sight of the strategic backbone that underpins the Najdorf. In this book, James Rizzitano, a battle-hardened Sicilian warrior, distils the most important ideas and themes from current practice to provide an ideal guide for those looking to succeed as White or Black in the Najdorf in the modern scientific era.
