A snowstorm, a highway, a lonely hotel... When Caroline Daynes gets stuck in a snowstorm in Williamsfield, PA, an enforced stay at The Egress hotel leaves her changed forever.

A prescient warning of a future we now inhabit, where fake news stories and Internet conspiracy theories play to a disaffected American populace "A glorious book . . . A spirited defense of science . . . From the first page to the last, this book is a manifesto for clear thought."—Los Angeles Times How can we make intelligent decisions about our increasingly technology-driven lives if we don't understand the difference between the myths of pseudoscience and the testable hypotheses of science? Pulitzer Prize-winning author and distinguished astronomer Carl Sagan argues that scientific thinking is critical not only to the pursuit of truth but to the very well-being of our democratic institutions. Casting a wide net through history and culture, Sagan examines and authoritatively debunks such celebrated fallacies of the past as witchcraft, faith healing, demons, and UFOs. And yet, disturbingly, in today's so-called information age, pseudoscience is burgeoning with stories of alien abduction, channeling past lives, and communal hallucinations commanding growing attention and respect. As Sagan demonstrates with lucid eloquence, the siren song of unreason is not just a cultural wrong turn but a dangerous plunge into darkness that threatens our most basic freedoms. Praise for *The Demon-Haunted World* "Powerful . . . A stirring defense of informed rationality. . . Rich in surprising information and beautiful writing."—The Washington Post Book World "Compelling."—USA Today "A clear vision of what good science means and why it makes a difference. . . A testimonial to the power of science and a warning of the dangers of unrestrained credulity."—The Sciences "Passionate."—San Francisco Examiner-Chronicle

Pulitzer Prize-winning author and astronomer Carl Sagan imagines the greatest adventure of all—the discovery of an advanced civilization in the depths of space. In December of 1999, a multinational team journeys out to the stars, to the most awesome encounter in human history. Who—or what—is out there? In *Cosmos*, Carl Sagan explained the universe. In *Contact*, he predicts its future—and our own.

The Weight of the Soul is the eighth in the bestselling *Psychic Surveys* series, that feature plot twists, compelling characters and a mystery at its dark heart. Perfect for fans of Stephen King, Darcy Coates, CJ Tudor and James Herbert. Life may have moved on to new challenges for Ruby Davis, now being a mother to baby Hendrix, but she's back at the helm of *Psychic Surveys*, her spiritual domestic clearance company, and the cases just keep getting stranger. A new client, Carrie-Ann Kendall, has suffered an accident at sea, one that - according to her - she shouldn't have survived. Visiting a clairvoyant who is apparently terrified by her presence, only confirms this notion. It is now up to Ruby and the team to find out whether she has cheated death. If so, what are the consequences, and for how long? Leon Vasilescu is the clairvoyant, now missing since encountering Carrie-Ann, and whom *Psychic Surveys* must track down. But in doing so, they will encounter another danger, one that is far more personal to Ruby and her mother Jessica, that could have them facing death too. Will it ever stop haunting me?"After her parents' divorce, five-year old Corinna Greer moves into *Blakemort* with her mother and brother. Set on the edge of the village of *Whitesmith*, the only thing attractive about it is the rent. A 'sensitive', Corinna is aware from the start that something is wrong with the house. Very wrong. Christmas is coming but at *Blakemort* that's not something to get excited about. A house that sits and broods, that calculates and considers, it's then that it lashes out - the attacks endured over five years becoming worse. There are also the spirits, some willing residents, others not. Amongst them a boy, a beautiful, spiteful boy... Who are they? What do they want? And is Corinna right when she suspects it's not just the dead the house traps but the living too? From the author of the bestselling Psychic Surveys series comes a Christmas ghost novella to chill your bones! Just what defines a haunting? On a strange island, amongst strangers, a strange tale unfolds... Beth Williams leads a lonely existence, going to work, then returning to her flat to watch TV, eat and sleep - the same routine on repeat, day after day. It's a loneliness she nurtures, finds comfort in even, except at Christmas, a time of dread. Then comes an invite, an offer from an old friend, to join him for 'The Damned Season' at his house on an island off the coast of Anglesey, for Christmas with a difference. Intrigued as well as desperate, Beth accepts, arriving there a few days before Christmas Eve. She's not the only one invited, however, there are four others, all strangers to each other, all crossing murky, choppy waters to meet their host, a much changed man that seems not only surprised to see them, but dismayed, and weary too. Who is nothing but a husk. With the boatman gone and the mists closing in, Beth finds herself in a solitary house of ever-changing rooms and never-ending corridors, of people disappearing and then reappearing, of feasts and famine. And then there are the doors, constantly multiplying, and locked...aren't they? The Damned Season. It's coming. Download today or READ FOR FREE in KU:

In the late 1950s, Mario Bava helped to create and define the Italian horror film. His classic directorial works of the 1960s and 1970s, including *Black Sunday*, *Kill, Baby ... Kill!* and *Lisa and the Devil*, remain among the most colorful and imaginative in the history of the genre. Bava's films are rife with unforgettable images—Barbara Steele's uncanny beauty being brutally violated in *Black Sunday*, Christopher Lee returning from the grave marked by his bloody demise in *The Whip and the Body*, the angelic-looking ghost child of *Kill, Baby ... Kill!*, the brutal murder scenes of *Blood and Black Lace* and *Twitch of the Death Nerve*—but they are also thematically rich and inter-connected. For many critics, Bava was a gifted stylist but few have bothered to look beneath the surface to uncover the deeper significance of his work. *The Haunted World of Mario Bava* was first published in 2002. It has now been updated, revised and expanded by author Troy Howarth to give a better overview of Bava's remarkable legacy as a director and "cinema magician." This new edition contains new contributions from Bava's son, director Lamberto Bava, and genre icon Barbara Steele. The book examines all of Bava's directorial works in detail while also providing a portrait of the man himself—a man for whom publicity and self-promotion was always shied away from, even as he continued to work himself to the point of exhaustion as he improvised and pushed himself to deliver films which would go on to influence such major filmmakers as William Friedkin, Martin Scorsese, Quentin Tarantino, Tim Burton and Joe Dante. Author Troy Howarth "discovered" Bava's work as a child on late night TV and has worked hard to help bring more serious attention to his films. In addition to holding down a full-time job in the field of social work, he is also a contributor to *We Belong Dead* magazine and writes reviews for such websites as *AV Maniacs* and *Eccentric Cinema*.

ONE OF ENTERTAINMENT WEEKLY'S "BIGGEST AND BEST YA BOOKS OF THE SUMMER" From Danielle Vega, YA's answer to Stephen King, comes a new paranormal novel about dark family secrets, deep-seated vengeance, and the horrifying truth that evil often lurks in the unlikeliest of places. Clean slate. That's what Hendricks Becker-O'Malley's parents said when they moved their family to the tiny town of Drearfield, New York. Hendricks wants to lay low and forget her dark, traumatic past. Forget him. But things don't go as planned. Hendricks learns from new friends at school that Steele House--the fixer upper her parents are so excited about--is notorious in town. Local legend says it's haunted. But Hendricks isn't sure if it's the demons of her past haunting her...or of the present. Voices whisper in her ear as she lays in bed. Doors lock on their own. And, then, one night, things take a violent turn. With help from the mysterious boy next door, Hendricks makes it her mission to take down the ghosts . . . if they don't take her first.

NEW YORK TIMES BESTSELLER • In the final book of his astonishing career, Carl Sagan brilliantly examines the burning questions of our lives, our world, and the universe around us. These luminous, entertaining essays travel both the vastness of the cosmos and the intimacy of the human mind, posing such fascinating questions as how did the universe originate and how will it end, and how can we meld science and compassion to meet the challenges of the coming century? Here, too, is a rare, private glimpse of Sagan's thoughts about love, death, and God as he struggled with fatal disease. Ever forward-

looking and vibrant with the sparkle of his unquenchable curiosity, Billions & Billions is a testament to one of the great scientific minds of our day. Praise for Billions & Billions “[Sagan’s] writing brims with optimism, clarity and compassion.”—Ft. Lauderdale Sun-Sentinel “Sagan used the spotlight of his fame to illuminate the abyss into which stupidity, greed, and the lust for power may yet dump us. All of those interests and causes are handsomely represented in Billions & Billions.”—The Washington Post Book World “Astronomer Carl Sagan didn’t live to see the millennium, but he probably has done more than any other popular scientist to prepare us for its arrival.”—Atlanta Journal & Constitution “Billions & Billions can be interpreted as the Silent Spring for the current generation. . . . Human history includes a number of leaders with great minds who gave us theories about our universe and origins that ran contrary to religious dogma. Galileo determined that the Earth revolved around the Sun, not the other way around. Darwin challenged Creationism with his Evolution of Species. And now, Sagan has given the world its latest challenge: Billions & Billions.”—San Antonio Express-News “[Sagan’s] inspiration and boundless curiosity live on in the gift of his work.”—Seattle Times & Post-Intelligencer “Couldn’t stay awake in your high school science classes? This book can help fill in the holes. Acclaimed scientist Carl Sagan combines his logic and knowledge with wit and humor to make a potentially dry subject enjoyable to read.”—The Dallas Morning News
