The SPSS Survival Manual throws a lifeline to students and researchers grappling with this powerful data analysis software. In her bestselling guide, Julie Pallant guides you through the entire research process, helping you choose the right data analysis technique for your project. From the formulation of research questions, to the design of the study and analysis of data, to reporting the results, Julie discusses basic and advanced statistical techniques. She outlines each technique clearly, with step-by-step procedures for performing the analysis, a detailed guide to interpreting data output and an example of how to present the results in a report. For both beginners and experienced users in psychology, sociology, health sciences, medicine, education, business and related disciplines, the SPSS Survival Manual is an essential text. Illustrated with screen grabs, examples of output and tips, it is supported by a website with sample data and guidelines on report writing. This sixth edition is fully revised and updated to accommodate changes to IBM SPSS procedures, screens and output. It covers new SPSS tools for generating graphs and non-parametric statistics, importing data, and calculating dates.

Engineers in multiple disciplines—environmental, chemical, civil, and mechanical—contribute to our understanding of air pollution control. To that end, Noel de Nevers has incorporated these multiple perspectives into an engaging and accessible overview of the subject. While based on the fundamentals of chemical engineering, the book is accessible to any reader with only one year of college chemistry. In addition to detailed discussions of individual air pollutants and the theory and practice of air pollution control devices, de Nevers devotes seven chapters to topics that influence device selection and design, such as atmospheric models and U.S. air pollution law. The Third Edition's many in-text examples and end-of-chapter problems provide a more complex treatment of the concepts presented. Significant updates include more discussion on the problem of greenhouse gas emissions and a thorough look at the Volkswagen diesel-emission scandal.

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

The Torch and the Sword is the long-awaited sequel to The Final Quest and The Call. Written for mature Christians, this book is not recommended for the spiritually timid. Continuing themes established in the previous books, The Torch and the Sword carries these themes further and deeper while venturing into new spiritual territories The Torch and the Sword paints an increasingly broad and clear spiritual picture of our times. As Christians, we are called not only to endure the challenges with which we are faced, but also to prevail, seizing the great spiritual opportunities available to us. The truth of the gospel of Jesus Christ is the light which is stronger than any darkness. This book is a call to those who will love and stand for the Truth until His victory is complete.

A new, original investigation into how screenwriting works; the practices, creative 'poetics' and texts that serve the screen idea. Using a range of film, media and creative theories, it includes new case studies on the successful ITV soap Emmerdale, Hitchcock's first major screenwriter and David Lean's unfinished film, Nostromo.

This title is available in a new edition Success is in the balance. In the Second Canadian Edition of Psychology, John Santrock and John Mitterer present the perfect balance of big ideas vs. supporting detail, breadth vs. depth, and research vs. application, all framed by a pedagogical system that effectively guides the student through the key concepts of psychology. New learning goals launch each chapter and serve as the organizing mechanism for the text and supporting materials, focusing students' attention on the big ideas of psychology. Rich applications and current research from Canada, the United States, and other countries support the big ideas so that students emerge with an understanding of the key concepts, not a collection of details. Santrock and Mitterer provide both you and your students
