The Kimono in Print: 300 Years of Japanese Design will be the first ever publication devoted to examining the kimono as a major source of inspiration, and later vehicle for experimentation, in Japanese print design and culture from the Edo period (1603-1868) to the Meiji period (1868-1912). Print artists, through the wide circulation of prints, have documented the ever-evolving trends in fashion, have popularized certain styles of dress, and have even been known to have designed kimonos. Some famous print designers also were directly involved in the kimono business as designers of kimono pattern books, such as Nishikawa Sukenobu (1671-1751) and Okumura Masanobu (1686-1764). The dialogue between fashion and print is illustrated here by approximately 70 Japanese prints and illustrated books--by Nishikawa Sukenobu, Suzuki Harunobu, Utagawa Kunisada, Kikukawa Eizan, and Kamisaka Sekka, among others. The group of five essays features new research and scholarship by an international group of leading scholars working today at the intersection of the Japanese print and kimono worlds and the social, cultural, and global significances circulated therein.

A New York Times Bestseller! Bestselling author, former White House speechwriter, and Atlantic columnist and media commentator David Frum explains why President Trump has undermined our most important institutions in ways even the most critical media has missed, in this thoughtful and hard-hitting book that is a warning for democracy and America’s future. "From Russia to South Africa, from Turkey to the Philippines, from Venezuela to Hungary, authoritarian leaders have smashed restraints on their power. Media freedom and judicial independence have eroded. The right to vote remains, but the right to have one’s vote counted fairly may not. Until the US presidential election of 2016, the global decline of democracy seemed a concern for other peoples in other lands. . . . That complacent optimism has been upended by the political rise of Donald Trump. The crisis is upon Americans, here and now." Quietly, steadily, Trump and his administration are damaging the tenets and accepted practices of American democracy, perhaps irrevocably. As he and his family enrich themselves, the presidency itself falls into the hands of the generals and financiers who surround him. While much of the country has been focused on Russia, David Frum has been collecting the lies, obfuscations, and flagrant disregard for the traditional limits placed on the office of the presidency. In Trumpocracy, he documents how Trump and his administration are steadily damaging the tenets and accepted practices of American democracy. During his own White House tenure as George W. Bush’s speechwriter, Frum witnessed the ways the presidency is limited not by law but by tradition, propriety, and public outcry, all now weakened. Whether the Trump presidency lasts two, four, or eight more years, he has changed the nature of the office for the worse, and likely for decades. In this powerful and eye-opening book, Frum makes clear that the hard work of recovery starts at home. Trumpocracy outlines how Trump could push America toward illiberalism, what the consequences could be for our nation and our everyday lives, and what we can do to prevent it.

In more than five decades as a reporter, editor and publisher, Peter Osnos has had an especially good view of momentous events and relationships with some of the most influential personalities of our time.As a young journalist for I.F.Stone’s Weekly, one of the leading publications of the turbulent 1960s and in 18 years at The Washington Post , he covered the war in Vietnam and Cambodia, the Soviet Union at the height of Kremlin power, Washington D.C. as National Editor, "Swinging London" in the 60s and Thatcher’s Britain in the 1980s.At Random House and the company he founded, PublicAffairs, he was responsible for books by four presidents -Carter, Clinton, Obama and Trump, celebrated Washington figures including Robert McNamara, House Speaker Tip O’Neill and Vernon Jordan, first ladies Rosalynn Carter and Nancy Reagan, the billionaire George Soros, basketball superstars Kareem Abdul Jabbar and Magic Johnson, legendary spies, political dissidents and the writers, Molly Ivins and Peggy Noonan, among many others. In this unusually wide-ranging memoir, Osnos uses a reporter’s skills to portray historic events and encounters beginning with his parents’ extraordinary World War II experiences escaping Europe to India, where he was born, to the present day. He shares unique portraits of the famous people he worked with and an insider’s perspective of the news and publishing businesses.As he charts the evolution of his career and recent history, he also explores the influence and impact of family, character, curiosity, luck, resilience, a well-pressed suit and some unexpected wrinkles. Also featuring a "virtual attic" of photographs.

Unravel the Mysteries of the Financial Markets—the Language, the Players, and the Strategies for Success Understanding money and investing has never been more important than it is today, as many of us are called upon to manage our own retirement planning, college savings funds, and health-care costs. Examines federal, state, and local laws that hinder the employment and economic progress of Blacks and, often, deny their right to work

In the modern age of remote working and flexible work hours, why have most office spaces remained relatively unchanged for decades? In Where is My Office?, Chris Kane draws upon his extensive knowledge and experience in commercial property to investigate the new-found significance of innovative corporate real estate thinking in the modern workplace. With the rise of agile working, hot-desking and new technological innovations, the traditional office space no longer serves the needs of the modern workforce. With a foreword from Mark Thompson, CEO of The New York Times, this fascinating book highlights the bold new solutions to workplace practices which have the potential to invigorate employee productivity while simultaneously trimming excess costs. Chris poses his ground-breaking "Smart Value" formula which underpinned the success of his redevelopment of the property portfolio of the BBC, and which can be adapted to enact meaningful and lasting organizational change in any business. This formula is supported through in-depth case studies from Chris's prestigious career, while interviews with prolific industry insiders such as Romen Journo, SVP of WeWork and Mark Dixon, founder of Regus, provide fascinating insights into the ground-breaking strategies that are transforming the commercial property sector. Where is My Office? is a must-read for any business leader looking to revitalise their workplace and develop a greater understanding of the beneficial impacts that innovative workplace strategies can have upon their organization's success.

[] A young man journeys into Sri Lanka’s war-torn north in this searing novel of longing, loss, and the legacy of war from the author of The Story of a Brief Marriage. "A novel of tragic power and uncommon beauty."—Anthony Marra "One of the most individual minds of their generation."—Financial Times
A Passage North begins with a message from out of the blue: a telephone call informing Krishan that his grandmother’s caretaker, Rani, has died under unexpected circumstances—found at the bottom of a well in her village in the north, her neck broken by the fall. The news arrives on the heels of an email from Anjum, an impassioned yet aloof activist Krishnan fell in love with years before while living in Delhi, stirring old memories and desires from a world he left behind. As Krishnan makes the long journey by train from Colombo into the war-torn Northern Province for Rani’s funeral, so begins an astonishing passage into the innermost reaches of a country. At once a powerful meditation on absence and longing, as well as an unsparing account of the legacy of Sri Lanka’s thirty-year civil war, this procession to a pyre "at the end of the earth" lays bare the imprints of an island’s past, the unattainable distances between who we are and what we seek. Written with precision and grace, Anuk Arudpragasam’s masterful novel is an attempt to come to terms with life in the wake of devastation, and a poignant memorial for those lost and those still alive.

This comprehensive history and analysis of the country’s most influential financial newspaper traces its evolution over the past century, profiles the leaders that shaped its course, and examines its organization, policies, and key issues and controversies.

"Into the maelstrom of unprecedented contemporary debates about immigrants in the United States, this perfectly timed book gives us a portrait of what the new immigrant experience in America is really like. Written as a "guide" for the newly arrived, and providing "practical information and advice," Roya Hakakian, an immigrant herself, reveals what those who settle here love about the country, what they miss about their homes, the cruelty of some Americans, and the unceasing generosity of others. She captures the texture of life in a new place in all its complexity, laying bare both its beauty and its darkness as she discusses race, sex, love, death, consumerism, and what it is like to be from a country that is in America's crosshairs. Her tenderly perceptive and surprisingly humorous account invites us to see ourselves as we appear to others, making it possible for us to rediscover our many American gifts through the perspective of the outsider"--

"I love Nick Lyons's books. Every sentence is so full and ripe." —Ted Hughes, former Poet Laureate to Queen Elizabeth II
FIRE IN THE STRAW is the witty and deeply felt memoir of Nick Lyons, a man with an intrepid desire to reinvent himself—which he does, over and over. Nick Lyons shape shifts from reluctant student and graduate of the Wharton School, to English Professor, to husband of a fiercely committed painter, to ghost writer, to famous fly fisherman and award-winning author, to father and then grandfather, to Executive Editor at a large book publishing company, and finally to founder and publisher of his own successful independent press. Written with the same warm and earthy voice that has enthralled tens of thousands of fly-fishing readers, Nick weaves the disparate chapters of his life: from the moment his widowed mother drops him off at a grim boarding school at the age of five, where he spends three lonely and confusing years; to his love of basketball and pride playing for Penn; to the tumultuous period, in the army and after, when he found and was transformed by literature; to his marriage to Mari, his great love and anchor of his life. Suddenly, with a PhD in hand and four children, Nick embarks on a complex and thrilling ride, juggling family, fishing, teaching, writing, and publishing, the wolf always at his door. Against all odds, The Lyons Press survives, his children prosper, his wife’s art flourishes, and his books and articles make him a household name. Fire in the Straw is a love story, a confessional, and a beautiful big-hearted memoir.
