The Ends Justify the Meanness is a satirical work by author Stanley Bing, written to answer the titular question; what would Machiavelli do in order to achieve greatness over others and work his way to the top? The answers vary, but all intertwine into one main point; what he would do is he would play [...]

What Would Machiavelli Do? - Free Essay Example ...

Machiavelli might inspire us in other ways. He modeled resilience more than just about any bard not named Shakespeare. Through his writing, Machiavelli bounced back from exile and ruin and once more rose on Fortune's Wheel. But it wasn't The Prince that gave him back his fame; that slim volume would only go viral after his death. It was his plays that made him a player.

Read Free What Would Machiavelli Do

1. Niccolo Machiavelli was a 16th century Italian diplomat and political theorist, author of The Prince (Il Principe). His short treatise was published in 1532 and has forever secured his fame [or infamy] as the book is singularly responsible for bringing the word "Machiavellian" into usage as a pejorative word in relation social and political dynamics.

What Would Machiavelli Do? | Bear Skin Digital

Departing from the opinion of these writers, Machiavelli argues that well-ordered republics structure themselves such that common people contain, contest and control the behavior of political and economic elites, and they place ultimate judgment over legislation and political punishment in the hands of the many and not the few.

From the NPR host of The Indicator and correspondent for Planet Money comes an “accessible, funny, clear-eyed, and practical” (Sarah Knight, New York Times bestselling author) guide for how women can apply the principles of 16th-century philosopher Niccolò Machiavelli to their work lives and finally shatter the glass ceiling—perfect for fans of Feminist Fight Club, Lean In, and Nice Girls Don’t Get the Corner Office. Women have been making strides towards equality for decades, or so we’re often told. They’ve been increasingly entering male-dominated areas of the workforce and consistently surpassing their male peers in grades, university attendance, and degrees. They’ve recently stormed the political arena with a vengeance. But despite all of this, the payoff is—quite literally—not there: the gender pay gap has held steady at about 20% since 2000. And the number of female CEOs for Fortune 500 companies has actually been declining. So why, in the age of #MeToo and #TimesUp, is the glass ceiling still holding strong? And how can we shatter it for once and for all? Stacy Vanek Smith’s advice: ask Machiavelli “with this delicious look at what we have to gain by examining our relationship to power” (Sally Helgesen, New York Times bestselling author). Using The Prince as a guide and with charm and wit, Smith applies Renaissance politics to the 21st century, and demonstrates how women can take and maintain power in careers where they have long been cast as second-best. “Machiavelli For Women is the ultimate battle guide for our times. Brimming with hard-boiled strategies, laced with wit, it’s a must read for every woman ready to wield power unapologetically” (Claire Shipman, coauthor of The Confidence Code).

Written in the 16th century, The Prince remains one of the most influential books on political theory. Its author, Niccolò Machiavelli was an Italian diplomat and political theorist, and is considered the father of modern political thought.

That Machiavelli's name has become synonymous with cold-eyed political calculation only heightens the intrinsic fascination of The Prince--the world's preeminent how-to manual on the art of getting and keeping power and one of the literary landmarks of the Italian Renaissance. Written in a vigorous, straightforward style that reflects its author's realism, this treatise on states, statecraft, and the ideal ruler is essential reading for anyone seeking to understand how human society actually works.

The Prince is a 16th-century political treatise written by the Italian diplomat and political theorist Niccolò Machiavelli as an instruction guide for new princes and royals.

Have you ever wanted to lash out at someone but lacked the appropriate putdown? The Machiavellian's Guide to Insults takes a humorous approach to dealing with such annoying personalities as the drama queen, the wealth flaunter, the self-proclaimed brain, the temperamental twit, and the talkaholic. Recommended insults range from the subtle and seemingly unintended to the outright declaration of war. Both have a place in your arsenal. Had Machiavelli written a book on insults, this is the book he would have written. He would have suggested calmly wounding your enemy with a tailor made barb without coming across as if you've been wounded yourself. Often the best putdown is a comment which seems on the surface to be well intentioned. And ham-handed attempts to relate or sympathize can be the most effective ways of underlining your opponent's weaknesses. These are far more humiliating than any angry outburst could ever be. Learn how to eviscerate the proud homeowner, the would-be tough guy, the bully, the boastful parent, the second guesser, and many others. Machiavelli would also have suggested having these insults ready beforehand, since, despite the old cliché, revenge tastes best

when it is a dish served piping hot.

'A wonderfully assured and utterly riveting biography that captures not only the much-maligned Machiavelli, but also the spirit of his time and place. A monumental achievement.' – Jessie Childs, author of *God's Traitors*. 'A notorious fiend', 'generally odious', 'he seems hideous, and so he is.' Thanks to the invidious reputation of his most famous work, *The Prince*, Niccolò Machiavelli exerts a unique hold over the popular imagination. But was Machiavelli as sinister as he is often thought to be? Might he not have been an infinitely more sympathetic figure, prone to political missteps, professional failures and personal dramas? Alexander Lee reveals the man behind the myth, following him from cradle to grave, from his father's penury and the abuse he suffered at a teacher's hands, to his marriage and his many affairs (with both men and women), to his political triumphs and, ultimately, his fall from grace and exile. In doing so, Lee uncovers hitherto unobserved connections between Machiavelli's life and thought. He also reveals the world through which Machiavelli moved: from the great halls of Renaissance Florence to the court of the Borgia pope, Alexander VI, from the dungeons of the Stinche prison to the Rucellai gardens, where he would begin work on some of his last great works. As much a portrait of an age as of a uniquely engaging man, Lee's gripping and definitive biography takes the reader into Machiavelli's world – and his work – more completely than ever before.

Discourses on Livy is the founding document of modern republicanism, and Harvey C. Mansfield and Nathan Tarcov have provided the definitive English translation of this classic work. Faithful to the original Italian text, properly attentive to Machiavelli's idiom and subtlety of thought, it is eminently readable. With a substantial introduction, extensive explanatory notes, a glossary of key words, and an annotated index, the *Discourses* reveals Machiavelli's radical vision of a new science of politics, a vision of "new modes and orders" that continue to shape the modern ethos. "[Machiavelli] found in Livy the means to inspire scholars for five centuries. Within the *Discourses*, often hidden and sometimes unintended by their author, lie the seeds of modern political thought. . . . [Mansfield and Tarcov's] translation is careful and idiomatic."—Peter Stothard, *The Times* "Translated with painstaking accuracy—but also great readability."—*Weekly Standard* "A model of contemporary scholarship and a brave effort at Machiavelli translation that allows the great Florentine to speak in his own voice."—*Choice*

A NEW YORK TIMES EDITORS' CHOICE In a series of poignant vignettes, a preeminent historian makes a compelling case for Machiavelli as an unjustly maligned figure with valuable political insights that resonate as strongly today as they did in his time. Whenever a tempestuous period in history begins, Machiavelli is summoned, because he is known as one for philosophizing in dark times. In fact, since his death in 1527, we have never ceased to read him to pull ourselves out of torpors. But what do we really know about this man apart from the term invented by his detractors to refer to that political evil, Machiavellianism? It was Machiavelli's luck to be disappointed by every statesman he encountered throughout his life—that was why he had to write *The Prince*. If the book endeavors to dissociate political action from common morality, the question still remains today, not why, but for whom Machiavelli wrote. For princes, or for those who want to resist them? Is the art of governing to take power or to keep it? And what is "the people?" Can they govern themselves? Beyond cynical advice for the powerful, Machiavelli meditates profoundly on the idea of popular sovereignty, because the people know best who oppresses them. With verve and a delightful erudition, Patrick Boucheron sheds light on the life and works of this unclassifiable visionary, illustrating how we can continue to use him as a guide in times of crisis.
