An inspiring look at endangered animals that introduces readers to the fascinating lives and challenges of species facing extinction from around the world. Did you know that a Galapagos tortoise can live to be 200 years old if nothing harms it? And yet, the Galapagos tortoise is an endangered species. Realistic color illustrations feature various animals in their natural habitats while engaging text teaches both about the species and what can be done to help protect them. Readers will be inspired to start their own research into more ways they can make a difference and help protect these beautiful creatures.

Can we save endangered species? Yes, we can! The environment is constantly changing. People are building roads, houses, bridges, and cities. This development has damaged the natural habits of many native organisms. In this important book readers are introduced to a variety of these endangered species. Engaging text and stunning illustrations highlight the plight of these animals and plants and suggest ways to help restore their natural environments. From the beautiful cui-ui to the Puerto Rican parrot, readers will begin to understand how each

living species contributes to our planet and how we can strive to save each of them.

From the author of the #1 New York Times bestseller *She Persisted* comes a beautiful book about the animals who share our planet--and what we can do to help them survive. Did you know that blue whales are the largest animals in the world? Or that sea otters wash their paws after every meal? The world is filled with millions of animal species, and all of them are unique and special. Many are on the path to extinction. In this book, Chelsea Clinton introduces young readers to a selection of endangered animals, sharing what makes them special, and also what threatens them. Taking readers through the course of a day, *Don't Let Them Disappear* talks about rhinos, tigers, whales, pandas and more, and provides helpful tips on what we all can do to help prevent these animals from disappearing from our world entirely. With warm and engaging art by Gianna Marino, this book is the perfect read for animal-lovers and anyone who cares about our planet. Praise for *Don't Let Them Disappear*: "A winning heads up for younger readers just becoming aware of the wider natural world." --Kirkus Reviews "An inviting . . . appeal to care for the planet and its most vulnerable creatures." --Publishers Weekly

Asian elephants and Mexican long-nosed bats are two examples of endangered mammals. Few of them exist in the wild. Other mammals have already gone extinct. What hurts these animals? What can you do to help? Read this book to find out!

This intriguing collection contains fascinating facts about the lives and challenges of endangered species.

Journey through book two in the If We're Gone series, in which the addas, red panda, cheetah, tapir, lemur, lynx and other endangered animals tell their stories and speak about the trouble they're in. Featuring rhyming text and interesting facts, this beautifully illustrated book is perfect for opening up conversations with animal-loving little ones about protecting threatened species.

This book does more than just create the definitions of vulnerable, endangered and critically endangered animals. It also includes pictures and fun facts to make learning a lot more fun and effective. The combination of age-appropriate texts and vivid images will not only attract a child's attention for a few minutes but will keep it until the last page has been turned. Grab a copy today!

In *Endangered*, the result of an extraordinary multiyear project to document the lives of threatened species, acclaimed photographer Tim Flach explores one of the most pressing issues of our time. Traveling around the world—to settings ranging from forest to savannah to the polar seas to the great coral reefs—Flach has constructed a powerful visual record of remarkable animals and ecosystems facing harsh challenges. Among them are primates coping with habitat loss, big cats in a losing battle with human settlements, elephants hunted for their ivory, and numerous bird species taken as pets. With eminent zoologist Jonathan Baillie providing insightful commentary on this ambitious project, *Endangered* unfolds as a series of vivid, interconnected stories that pose gripping moral dilemmas, unforgettably expressed by more than 180 of Flach's incredible images.

Thousands of animal species have vanished in the last two centuries, and many others, like the Amur leopard, are almost gone. Read and find out about the world's most fascinating endangered animals ... before they disappear! On the cover: Amur Leopard Siberia (Russia), China and Korea Fewer than 40 left This solitary hunter is the rarest of the big cats. It lives in the dense forests of one small section of northeast Asia, where it hunts rabbits, badgers and deer. The Amur leopard is a good swimmer and climber, and often hides its kill in trees. It can weigh as much as one hundred fifty pounds and has a thick fur coat to help it survive in cold, snowy weather. Illegal hunting and habitat destruction have greatly endangered these leopards.
