Imagine how much more can be accomplished in the area of tikkun olam (repairing the world) when two social action groups are combined.

Imagine the spiritual power and passion of our music when two magnificent choirs are brought together as one.

Imagine the extra energy and opportunities for engagement of classes infused with more children – many of whom know each other from public school.

Imagine the potential for more convenient carpooling to religious and Hebrew school!

Imagine a larger, more vibrant youth group.

Imagine opportunities for new and exciting forms of worship and learning brought about by having a deep clergy team comprised of two senior rabbis and a versatile cantor.

Imagine having a more enriched and varied adult education program because we have a Director of Lifelong Learning with an adult-centric mission.

Imagine the benefits of a Director of Congregational Learning with a sole focus on providing our children with the most advanced and engaging curriculum and learning techniques.

Imagine maintaining the same customs and observances that you have traditionally found meaningful, and now having opportunities to develop additional ones.

From strength to strength, greater together, now and for future generations.
